ROMANOFF DYNASTY MUST FALL

Fiery Speech of Jew at Meeting in
New York.

New York, Nov. 16.—In the Temple
Emanuel, Fifth avenue, a meeting was
held under the auspices of the New
York section of the Council of Jewish
Women to protest against the outrages
on Jews in Russia. Joseph Baroness
made a speech, in the course of which
he said:

"I have personally lost no less than
twelve relatives, to say nothing of hun-
dreds of friends, in the massacres of
Kishineff and Odessa. Port Arthur fell
as a punishment for the massacres of
the Jewish people, and the fall of the
dynasty of the Romanoffs just so surely
will follow the massacres which are
now horrifying the world. We want
ammunition. We want weapons and
arms for the defense of our mothers,
our sisters and our wives who are
there, beneath the heel of the despot,
and at the mercy of his hirelings."

DISORDERS AT CRONSTADT.

Government Account Minimizes Num-
ber of Fatalities.

St. Petersburg, Nov. 15.—The gov-
ernment publishes an official account
of the disorders at Cronstadt, which
ascribes the origin of the mutiny to
the arrest of forty soldiers who pre-
sented a complaint to the commander-
in-chief, and the attempt of a party of
sailors to rescue them from the guard.
The account gives the number of mu-
tineers as "several thousand" and mi-
nimizes the fatalities, saying that most
of the firing was in the air and by
drunken sailors. It says that eighteen
persons were killed, that eight died
of their wounds and that two officers
and eighty-one soldiers, marines and
civilians were wounded.

Refuse to Grant Eight-Hour Day.

St. Petersburg, Nov. 16.—The em-
ployers at a meeting resolved to ad-
here to their previous decision that it
would be impossible to carry on busi-
ness if they conceded the demand of
the workers for an eight-hour day.

Employees Organize Court.

Liban, Russia, Nov. 16.—The em-
ployees of the wire mills here have or-
ganized a court and tried, sentenced
and shot a clerk who was accused of
inciting Jewish massacres.

HARRIMAN TESTIFIES

RAILWAY MAGNATE GENERALLY

DENIES STATEMENTS MADE

BY JAMES H. HYDE.

LATTER RECALLED TO STAND

REAFFIRMS HIS PREVIOUS TES-

TIMONY AND SUPPLIES AD-

DITIONAL DATA.

New York, Nov. 16.—E. H. Harriman,
chairman of the board of directors of
the Union Pacific, former member of
the board of directors of the Equitable
Life Assurance society and connected
with many railroads and financial in-
stitutions, the former friend of James
Hazen Hyde, against whom the latter
charged acts of an unfriendly nature
in his testimony, was one of the chief
witnesses before the Armstrong com-
mittee on insurance investigation dur-
ing the day.

Mr. Harriman was called immedi-
ately after the recess and his testimony
was a series of denials of the charges
made by Mr. Hyde. Contrary to Mr.
Hyde's statement, Mr. Harriman said
Mr. Hyde came to him about a year
ago and asked him to use his influence
to have him appointed ambassador to
France. Mr. Harriman said he would
speak to President Roosevelt when he
saw him, but added that he did not
recommend Mr. Hyde for the post.

Harriman Makes Denial.

Upon Mr. Hyde's testimony relative
to the settlement of the Odell suit be-
ing read to him Mr. Harriman denied
that he had suggested to Mr. Hyde any
danger of a repeal of the charter of the
Mercantile Trust company directly or
indirectly and stated that Mr. Hyde
came to him and asked him to use his
influence with Mr. Odell toward a set-
tlement of the suit.

Mr. Harriman explained that he
wanted Mr. Hyde's individual signa-
ture to the syndicate agreement of
the \$50,000,000 Union Pacific pool be-
cause no syndicate wants a corporation
as a member. He justified this be-
cause it was difficult to guard confi-
dence when more than one individual
represented the same interest.

He denied that he ever advised Mr.
Hyde to sell his stock until after the
report of the Frick committee and said
he had offered to subscribe \$500,000
to assist Mr. Hyde in retaining his
stock.

Discusses Union Pacific Deal.

Mr. Harriman said the Frick report
never mentioned the Union Pacific
deal specifically, but included it under
the general statement that Mr. Hyde
had committed the society in unwar-
ranted transactions without the
knowledge of the committee. Mr. Har-
riman thought it perfectly proper for
the Equitable to buy Union Pacific un-
der an agreement to hold it for five
years. He did not know that it was
Mr. Hyde's personal money in this deal
and always supposed it was that of
the Equitable.

Witness also denied that he had re-
quested that the executive committee
be not informed of this deal and when
Mr. Hyde's testimony on this point
was read to him he replied that he "did
not remember." Mr. Harriman said
that early in the Equitable troubles
he had defended Mr. Hyde from at-
tacks and had advised him to move
the adoption of the Frick report, tel-
ling him that he would stand by him
through thick and thin.

Hyde the First Witness.

Mr. Hyde was the first witness of the
day. He told of four offers for his
stock, besides that of Mr. Ryan, to
whom he sold. These offers were made
by Mr. Frick and Mr. Harriman, by
George Gould, by Gage E. Tarbell, by
presenting a syndicate, and by George
W. Young. These were made verbally
and the largest was made by Mr.
Young, former president of the United
States Mortgage and Trust company,
who offered \$7,000,000. Mr. Hyde said
he declined all these offers because
he did not think it to be to the best
interest of the society to accept any
of them. Mr. Ryan made the only offer
for the stock after the Frick report.

Mr. Hyde was excused while George
H. Squire, Jr., a stock broker and son
of the former financial manager of
the Equitable Life, was called to ex-
plain some transactions of his father's.
He told how his firm sold stock of the
Lawyers' Title Insurance and Trust
company for his father's account to
the American Deposit and Loan com-
pany.

Equitable Buys Certain Stock.

George H. Jenkins, formerly pres-
ident of this company, was called and
said that George H. Squire requested
that all of this stock offered by his
son's firm be purchased. This was
done from time to time and subse-
quently sold to the Equitable Life at
an advance, the profits going to Mr.
Squire.

Mr. Hyde was again called and said
this was the first time he had heard
of these transactions. He said in an-
swer to Senator Armstrong that his
powers of attorney were destroyed
when he returned from Europe always,
but that if an obligation should turn
up now, purporting to have been made
while he was abroad, the situation
would be very embarrassing.

After Mr. Harriman had testified
Mr. Hyde was called and asked if he
heard Mr. Harriman testify. He re-
plied that he had. He reaffirmed his
previous testimony and supplied data
about several questions concerning
which Mr. Harriman was uncertain.

Cross-examination Not Allowed.

Samuel Untermyer, counsel for Mr.
Hyde, attempted to cross-examine Mr.
Harriman, but the committee, after
consultation, refused permission,
whereupon Mr. Untermyer asserted
the examination had been conducted in
a disorderly manner.

Later in the day Mr. Hyde threw the
room into an uproar by an answer to
Assemblyman Rogers, who asked Mr.
Hyde why Mr. Odell was feared when
there was no legislature in session
and the governor was soon to retire.

Mr. Hyde replied that some men
are more influential and powerful out
of office than in.

With the day's session the examina-
tion of both Mr. Hyde and Mr. Harri-
man was completed and the next wit-
ness, who is awaited with much inter-
est, is Mr. Odell, who has requested
that he be examined.

LIPTON'S TWO GREAT REGRETS.

Has Not Lifted America's Cup or Been
Married.

London, Nov. 16.—"There are two
great regrets in my life. One that I
have not yet lifted the America's cup
and the other that I have not been
married, secretly or otherwise," is Sir
Thomas Lipton's reply to the state-
ment published in the United States
that he years ago was secretly wedded
to a Scotch girl. Sir Thomas received
cable inquiries from New York on the
subject.

OPPOSE CUBAN RULE

AMERICANS ON ISLE OF PINES

REBEL AGAINST PALMA'S
GOVERNMENT.

Washington, Nov. 16.—Senor Ques-
ada, the Cuban minister here, called at
the state department during the day
and seemed to be considerably agi-
tated over the news from the Isle of
Pines to oppose the formal transfer
of the island to Cuba. He had an in-
terview on the subject with Secretary
Root, but declined to make any state-
ment concerning it.

The contention of the American resi-
dents of the island is that as they own
in fee simple five-sixths of the ground
and as the remaining one-sixth is in
the hands of one or two Spanish fam-
ilies, the 1,200 native residents being
non-property owners, they have a right
to be heard by this government. A
suggestion has been made here which
is known to have received serious of-
ficial consideration to the effect that
in view of the fact that the war de-
partment actually did at one time give
ground for a belief on the part of some
persons that the Isle of Pines was
American it would be only just for this
government to pay these settlers for the
land.

GGREATLY EXAGGERATED.

Cuban Official View of Trouble on the
Isle of Pines.

Havana, Nov. 15.—The cabinet dis-
cussed the reports from the Isle of
Pines and in the absence of any of-
ficial communication on the situation
there unanimously concluded that the
movement had been greatly exaggerat-
ed. A trustworthy messenger will be
sent to the island to ascertain the real
situation.

Mr. Percy, at the request of Mr.
Squires, the American minister, related
the circumstances leading to the
movement and asserted that there was
no intention on the part of those elec-
ted to assume their offices unless they
had the backing of the United States
government. He said that the main
object was the election of a delegate
who would proceed to Washington and
claim admission to congress, but that
such a proceeding could not be had
without the tentative erection of the
framework of a territorial government.

He intimated that the Americans in
the island would in any event resist
being governed by Cuba. He declared
to the Associated Press that every
American there would die rather than
submit to an authority which was ille-
gal. Officials of the government indi-
cated to the Associated Press that they
would dislike very much to use force
against the islanders under any cir-
cumstances, and that they would pre-
fer, in case force should be found ne-
cessary, to co-operate with the govern-
ment of the United States.

If a man could have half his wishes
he would double his trouble.—Franklin

PREVENTS BLOODSHED

PIERCE BLIZZARD FORCES ST.

PETERSBURG STRIKERS TO

EVACUATE STREETS.

GENERAL STRIKE AGAIN ON

POLITICAL MOVE TO AID THE

STRUGGLE OF POLISH PEO-

PLE FOR AUTONOMY.

St. Petersburg, Nov. 16.—A fierce
northeast blizzard and snow which
blew down on St. Petersburg during
the evening prevented bloodshed in
the Russian capital. The bitter cold
by forcing the strikers to remain in
doors, did more to preserve order than
all the Cossack cavalry patrolling the
streets. Heavy artillery reserves are
stationed in all the industrial districts
but there was no rioting. There was
rumors of collisions in various parts
of the city, but on investigation they
turned out to be false.

The Social Democrats had an im-
pressive response on the part of all or-
ganizations of workmen to their sum-
mons for a general political strike to
demonstrate their solidarity with the
struggle of their Polish comrades for
autonomy and to protest against the
execution of the mutinous sailors at
Cronstadt. The men walked out of all
the big mills and factories and the em-
ployees of the Baltic and Warsaw rail-
roads, the printers and other classes
of laborers struck, but the shops in the
centers of the city were not closed.
Troops took charge of the electric light
stations, which were operated by sail-
ors, so that the city was not placed
in darkness.

No News From the Interior.

No dispatches have arrived from the
interior, however, to show that the
workmen in other cities are responsive
to the demand for co-operation and dis-
sension has broken out among the
leaders, some of whom believe the
strike to be hasty and ill-advised.

The situation has caused a general
renewal of the panicky feeling among
the inhabitants whose nerves were al-
ready shattered by the events of the
last fortnight and hundreds of persons
who had just returned are again leav-
ing for Finland. The foreign residents
are becoming more and more alarmed
and many of them are hastily prepar-
ing to go abroad for the winter.

In case the Finnish Socialists should
join their Russian comrades and tie up
the Finnish railroad the only egress
would be by water and the freezing of
the Gulf of Finland a fortnight hence
would close the last exit. The foreign
embassies

Share the Public Alarm

and the British embassy is advising
the immediate removal of women and
children.

There are all sorts of wild rumors

about interference by the foreign pow-
ers in circulation and the Bourse Ga-
zette prints a report that all the great
powers have joined in a notification
to Russia that they intend to interfere
and prevent anarchy.

Count Witte and his cabinet were
in session throughout the afternoon
and evening discussing the situation
and a number of prominent Liberals
were called in for consultation. Grand
Duke Nicholas was present part of the
time. The possibility that the govern-
ment might be compelled, if the situa-
tion grew worse, to declare martial
law in St. Petersburg, was considered,
but as far as has been learned no defi-
nite decision in this matter was reached.

While the League of Leagues is dis-
posed to back up the strike the work-
men are undoubtedly alienating much
public sympathy by their recklessness.
Many Liberals openly declare that the

Strike is a Tactical Blunder
which may prove disastrous, but their
temperate counsel is rejected.

In government circles it is recog-
nized that the situation in Poland re-
quires a skillful hand at the helm.
Governor General Sazonov probably will
be replaced by a man of Count Witte's
choice. The name of General Mensky
is mentioned in this connection, but it
is doubtful if he will accept the office
under present conditions.

In response to inquiries Count Witte
is said to have reiterated his assur-
ances that the Jewish question will be
referred to the douma for settlement
and he is also said to have declared
that the emperor's will for the realiza-
tion of the reforms announced in the
manifesto of Oct. 30 is inflexible.

AN EFFICIENT COUNCIL.
The present city council, in administering the affairs of the city, has been most efficient from a business standpoint, and the members deserve the commendation of all. At least this is the conclusion one must arrive at after considering the financial condition of the city as shown by the reports submitted by the tax committee of the Commercial Club, and published elsewhere in this issue.
According to the report the council has conducted the affairs of the city the past year in such a manner that the floating indebtedness of the city has been reduced \$21,568.71 in thirteen months. To do this, in addition to the receipts of the city from licenses, fines, etc., a levy of 10 per cent on the taxable property of the city was made, but the current expenses were so held in check that they were practically paid by the receipts of the city other than taxes, and the amount received from the tax levy was used to reduce the floating debt. There is still a floating debt of about \$30,000, but at the suggestion of the Commercial Club the council will not attempt so large a reduction again this year, hence only levied 8 mills. By an equally wise and economic policy the present year the debt will be considerably further reduced, and when the floating indebtedness is all paid, and equal efficiency in the managing of the city's affairs is had, practically no taxes will have to be levied for city purposes.
And withal its economy the present council has made many improvements. Fine cement sidewalks have been built in all parts of the city, two blocks of streets have been paved, the city has been well policed, and affairs generally have been well conducted.
The council thus having been so efficient in conducting the general welfare of the city, it is to be hoped that they will be equally wise and efficient in settling the water works question which must be settled during the coming year.

GAVE BIRTH TO CHILD IN JAIL

Mrs. Florence Wise, Arrested on Charge of Beating Girl, Has Strange Experience
WAS TO HAVE HAD HEARING Yesterday Morning on Charge But Baby was Born About 6 O'clock A. M.

Mrs. Florence Wise, arrested on Tuesday evening charged with assaulting, beating and otherwise cruelly treating her two-year and half old daughter, Clara Wise, and locked up in the county jail, gave birth to a child yesterday morning at 6 o'clock in the county jail and the story connected with the case is certainly a most distressing one.
This woman and her husband separated some time ago and she has been living in an building just south of the N. P. shops with her little two-year and a half old daughter, Clara, and it is alleged that she was living with another man. The complaint that the woman was illtreating her little daughter was made by her mother-in-law, and on Tuesday afternoon or evening the complainant learned that the woman and this man she was living with had intended skipping out that night; that people living in the same building had overheard conversations to this effect. Arrangements were made at once to have the woman arrested and Sheriff Erickson gave Deputy Sheriff Sall instructions to take the man too if he interfered. They got wind of the affair and he skipped, leaving the woman to the mercies of the officers. She and her little girl were taken to jail Tuesday evening.
She was locked up in a cell in the woman's ward at the county jail and during the night she called for Mrs. Erickson who attended to all her wants. In the morning at 6 o'clock the woman gave birth to the child, a nine pound boy.
Her unusual condition has hardly dawned on the mother, but a shudder goes through anyone who realizes that this new life saw the light of day in a cell. Every attention was given the woman by Mrs. Erickson and from a humanitarian standpoint there was nothing more that could have been done, but the stigma is there, and the story will be passed down through years as one of the most distressing on record.

NOVEL HORSE BREAKING.

Now a Renowned Woman Made One of the Most Wonderful Automobiles.
Owners of spirited horses who have been fearful of life and limb since the advent of the automobile need no longer worry, according to a special dispatch from Smithtown, N. Y., to the New York Press. Fences and telegraph posts, which appear to become potent attractions to the animals as soon as a motor car appears, need no longer worry the drivers if they will only adopt a plan recently made public by a woman of Smithtown who prefers to hide from the fame which is justly hers. She is the owner of a horse which was in the habit of making for the most dangerous obstruction as soon as it spied an automobile. Because of the danger which attended the driving of the animal she was forced to keep it in the barn for a long time, but a few days ago her fertile brain solved the puzzle.
She determined to make the horse familiar with the sight of automobiles without risking her life in the process of education, so she rigged up a wheelbarrow with bright tin pans and hoops, hung a red blanket and an old skirt over it, and when finished she had a "devil wagon" that would frighten the safest horse. She also placed a long chain in the wheelbarrow so that it would rattle against the pans, and then she pushed the contrivance up and down the barn floor in front of the horse. At first the animal reared and kicked in efforts to get away, but it soon got used to the sight and sound and became tractable. Then an experiment was made in the open, and again the horse failed to notice the rigged up wheelbarrow. The woman drove the animal the other day for the first time in several months, and it passed all automobiles as though it were in blissful ignorance of any such machine.
A Year of Intense Suffering.
Mrs. Carrie Askey, Cumberland, Wyo., suffered for more than a year with sore throat and a tickling in the throat, that kept her coughing night after night. She used Warner's White Wine of Tar and has not lost a night's sleep since. Write her. For sale by Johnson's pharmacy and H. P. Dunn & Co.
Blading a Bargain.
In the book of Ruth a shoe is mentioned as being handed over to ratify a bargain, and the custom in a sense seems to have been repeated later, for in the year 1902 certain bishops were put into possession of their sees by receiving a glove. These may have been richly jeweled gloves, for such formed part of the episcopal habit, and when some abbots thought fit to array themselves in similar hand covering peculiar only to bishops they were forbidden their use by the council.

ARE INSPECTING STATE DITCHES
Governor Johnson, Secretary of State Hanson, and Engineer George Ralph
ON AN IMPORTANT MISSION
Have Been to Rosseau, Todd and Aitkin Counties and Are Much Pleased
Governor J. A. Johnson, Secretary of State P. E. Hanson, and Engineer George Ralph, the latter the engineer of the state drainage commission, passed through the city this afternoon en route to St. Paul from Aitkin where they have been examining state ditches under the supervision of the state drainage commission.
The party first went to Rosseau county where the commission has constructed a ditch seven miles long, through a swampy region, and it is the belief that much good will result in the draining of thousands of acres of land that would otherwise be worthless.
They also visited the Wing river dam near Parkers Prairie, which is four miles long and still another in Aitkin county which is about three miles long.
Governor Johnson stated this noon that he thought this is a work that should have been contemplated long ago, as it will result in no end of good and he is very enthusiastic after going over the ground.

SINKING NEW SHAFT

EIGHT MEN KILLED IN EXPLOSION OF MINE GAS NEAR BENTLEYSVILLE, PA.

TIMBERS FLY LIKE ROCKETS

TWO BODIES RECOVERED SO HORRIBLY MUTILATED AS TO BE UNRECOGNIZABLE.

Monongahela City, Pa., Nov. 16.—Undoubtedly killed and blown to pieces seven men are lying in the depths of the new shaft of the Braznell Coal company on the outskirts of Bentleysville, while another outside the mine is dead as the result of a gas explosion during the day.

The dead are: Ed Farragut, day boss; Ed Hastie, shift boss; F. H. Newman, machine runner; G. B. Wagner, machine runner; Joe Stokes, colored mucker; John McCauley, mucker; Joe Shickold, mucker; Joe Hoskins, mucker.

The Braznell Coal company has been sinking the new shaft since last summer. Two weeks ago it was learned that a pocket of gas had formed in the bottom of the mine, which is 185 feet deep. Orders were given for all the men to work with safety lamps and this had been done. Late in the day Day Boss Farragut and his six men descended into the mine. They were building a concrete water ring or ditch fifty feet down the shaft in order to catch dripping water. About five minutes after the men descended a terrific explosion occurred which blew huge pieces of timber out of the mine like skyrocketed as high as 150 feet in the air. The tippie and all the mine rigging were torn down and debris scattered in heaps all around. A shovel which lay at the top of the shaft was hurled with such violence that it sank four inches into a plank. What must have befallen the seven men down in the shaft is terrible to contemplate. It is believed they were instantly killed and probably fell to the bottom of the shaft. John McCauley on the outside was killed by the falling tippie and others were seriously though not fatally hurt.

Shortly after 1 o'clock a. m. two horribly mangled bodies were found by the rescuers. The bodies were so badly torn and battered by the force of the explosion that they cannot possibly be identified. It is not thought that any more bodies will be recovered before daylight, as the other men are believed to be buried at the bottom of the timbers.

WILLIAM R. ESTES DEAD.

Former Minnesota Politician and Consul at Zittau, Germany.

Madella, Minn., Nov. 16.—A cablegram announcing the death of United States Consul William R. Estes, recently appointed to the post at Zittau, Germany, and a former politician of Minnesota, was received by S. B. Estes, a brother, from Solingen, Germany, where Mr. Estes has been stationed. The message contained only three words, as follows:

"Brother died; pneumonia."

A wife and four children survive Consul Estes and his body probably will be brought here for burial.

MISQUOTED THE PRESIDENT.

Boston Man Denies Any Intention of Violating Confidence.

Boston, Nov. 16.—Henry M. Whitney, president of the Boston chamber of commerce and Democratic candidate for lieutenant governor of Massachusetts in the recent election, has issued a statement in reference to President Roosevelt's remarks to the committee of boot, shoe and leather manufacturers who visited the White House during the day. President Roosevelt told the committee that he could not discuss the question freely and informally, saying that a year ago Henry M. Whitney called on him with reference to tariff matters and later misquoted what the president had said. After reading the Washington dispatch Mr. Whitney prepared a statement in which he denied that he had willfully misrepresented the president or intentionally violated any confidence.

BRIDGE WORKERS' STRIKE.

Federation of Labor Endorses Stand Taken by the Men.

Pittsburg, Nov. 16.—The third day of the American Federation of Labor convention was given up for the greater part to the presentation and consideration of resolutions, but none of great importance outside the endorsement of the structural bridge workers strike. One of the disputes which promised to cause trouble in the convention has been practically adjusted. It is between the Amalgamated Wood Workers and the Brotherhood of Carpenters and Joiners and over the question of jurisdiction. It is understood that delegates from the wood workers came to the convention with instructions to demand the expulsion of the brotherhood from the federation. It is announced that there is now every indication of the amicable adjustment of the differences. If this is done the matter will not be brought before the convention for adjustment.

A canvass among the high officials shows that the sentiment is generally favorable to Toronto as the next place of meeting.

DEED OF HOLDUP MAN.

One Girl Killed and Another Fatally Wounded.

Grand Rapids, Mich., Nov. 16.—Josephine Oom was instantly killed and her sister probably fatally wounded by a holdup man a quarter of a mile outside of the city limits. The two girls, with their father, Jacob Oom, were driving home along East Bridge street. When they were passing a small thicket a man stepped from the woods into the street and commanded them all to hold up their hands. Instead of heeding the demand the father whipped up the horses to get by. The highwayman thereupon fired twice, the first shot killing Josephine instantly and the second wounding Jennie seriously. After the second shot the man disappeared in the woods. The police were at once notified and began a search for the murderer.

Deafness Cannot be Cured

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & Co., Toledo, O. Sold by Druggists, 75c.

The stretch of country traveled by the flame is ten miles wide. All available men in the city are out fighting the flames, plowing fire breaks or using wet sacks. The damage will be great. The fire was finally extinguished within a mile of Aberdeen, but it is reported to be still raging ten miles west.

Germany Makes Denial.

Berlin, Nov. 16.—It is officially declared that the constant insinuations that Count Witte was influenced by Germany regarding the denial of autonomy to Poland and that the German government is preparing for diplomatic and military actions are utter inventions.
